DESCRIPTION:

SAT POS solutions are custom-designed exclusively for your business. Streamline, optimize, and effectively enhance your processes, delivering the **optimal experience** your employees require and your customers desire.

Our **RS100** cash drawers are meticulously crafted to provide the perfect combination of elegance, versatility, and reliability, making them ideal for your company's **24/7** operations. The **RS100** series offers a range of options, including automatic opening triggered by the receipt printer or computer, as well as manual opening using a key. These cash drawers are well-suited for retail markets, supermarkets, corporate environments, and any point-of-sale location that handles cash transactions on a regular basis.

The cash drawers are designed to provide the ideal compact experience, thanks to their compartments for coins and bills.

They are constructed with metal components to enhance their strength and durability.

Capable of over one million opening cycles.

Easy compatibility through the RJ11 port with receipt printers.

Installation flexibility. Ideal for POS billing solutions (Point of Sale, Supermarkets, etc.)
