

ADVERTISING TOTEM KIOSK | Digital Signage

SAT TK555V

KEY FEATURES

- Modern, elegant, and industrial design
- Ideal for digital signage solutions
- Built on an aluminum chassis and frame
- High-durability industrial multi-touch screen technology
- Floor-standing traffic-stop installation
- Available in a 55" display
- Ideal for heavy-duty 24/7 operation

PRODUCT DESCRIPTION

Discover the innovation in interactivity with the SAT TK555V kiosk or floor-standing touch totem – a self-service solution designed to revolutionize the customer experience. This totem offers an intuitive touch interface that allows users to effortlessly navigate a wide range of self-service options. From displaying digital content to accessing detailed product information, our touch kiosk provides a versatile and convenient solution to meet your customers' needs.

With its sleek and modern design, this device integrates seamlessly into any commercial environment, delivering a smooth and efficient user experience. Optimize your operations and enhance customer satisfaction with our floor-standing self-service touch kiosk: the smart way to take your business to the next level!

Built to the highest industrial quality standards, the SAT TK555V is engineered to withstand continuous use in demanding commercial environments. Using high-durability materials and cutting-edge technology, this totem is designed to operate reliably 24 hours a day, 7 days a week.

Software Compatibility

The advertising kiosk line offers compatibility with specialized software for digital content management.

Self-Service
Ideal self-service solution for end users in digital signage operations, informational displays in shopping malls, banks, and transportation terminals.

Touch Operation

Fully interactive operation through its industrial multi-touch screen, built for high durability and resistance.

High-Resolution Display
Ultra HD (UHD) resolution, also known as 4K, one of the most widely adopted display standards available today.

Heavy-Duty Operation

Purpose-built to perform in the most demanding conditions, operating continuously 24 hours a day, 7 days a week.

SAT TK555V — TECHNICAL SPECIFICATIONS	
SPECIFICATION	SAT TK555V Ci5
SYSTEM	
Processor	Intel® Core™ i5-1235U
Generation	12th Generation
Graphics	Intel® Iris® Xe Graphics
Base Clock Speed	1.30 GHz
Turbo Boost Speed	4.40 GHz Max
Core Count	10
Thread Count	12
Memory	8GB DDR4 3,200 MHz (2x slots) up to 32GB
Storage	128GB or 256GB SSD SATA M.2
Cooling System	Active Fan Cooling
Operating System (Compatible)	Windows 10, 11 (Not included) / Linux (Not included)
DISPLAY / TOUCH	
Display	LCD Panel – Ultra HD (UHD)
Size	55" (16:9)
Resolution	3840 x 2160 px
Brightness	500 nits
Viewing Angle	H:178° / V:178°
Response Time	4–9 ms
Panel Lifespan	50,000 hours
Touch Panel	Infrared Multi-Touch
Touch Points	10-Point Multi-Touch
CONNECTIVITY / INTERFACE	
Ethernet	1x RJ45 10/100/1000 Mbps
Wi-Fi / Bluetooth	Wi-Fi 2.4G/5G (External Antenna)
Video Output	1x VGA (on board)
USB	2x USB 3.0 / 2x USB 2.0 (on board)
COM	1x COM (RS232)
Audio	Speaker Audio 4Ω 3W x 2
Audio Output	1x Audio Jack / 1x Mic Jack (on board)
GENERAL	
Power Supply	AC 110V–240V, 50Hz/60Hz
Power Consumption	Approx. 110W
Operating Environment	Temperature: 0°C – 45°C · Humidity: 30%–80%
Storage Environment	Temperature: -10°C – 60°C · Humidity: 30%–70%
Certifications	CE, FCC
Dimensions	1914mm x 748mm x 180mm
Packaging Dimensions	2030mm x 1000mm x 200mm
Build Materials	Metal Base, Aluminum Chassis, Tempered Glass
Primary Color	Matte Black
Gross Weight	55 kg
Floor Base	Reinforced Steel Base (Removable)

LIGHTWEIGHT & ELEGANT DESIGN

An elegant, lightweight, and industrial design with a new ultra-slim profile, ideal for any installation environment requiring self-service operation. Featuring tempered glass integrated into its build for long-lasting durability, with a full metal enclosure that ensures an extended service life.

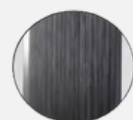

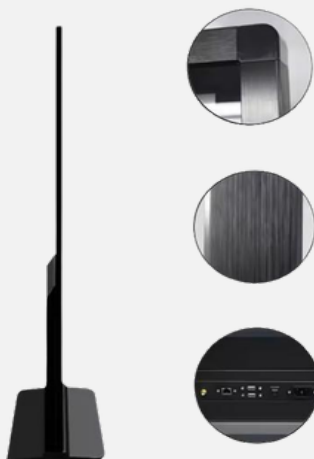

INTERACTIVE OPERATION

The advertising kiosk line delivers a fully interactive experience through integrated infrared touch technology. Supporting up to 10 simultaneous touch points, it is fully compatible with all digital content management software.

DIGITAL CONTENT MANAGEMENT

The kiosk offers software compatibility for signage and digital content management. Through its 55" display, it enables the visualization and projection of digital content across any format.

INDUSTRIAL-GRADE CONSTRUCTION

Built on a high-resistance steel chassis, with a full metal enclosure for extended service life and tempered glass front panel for display protection.
