DESCRIPTION:

SAT POS solutions, designed exclusively to fit your needs. Streamline, optimize, and effectively renew your processes, delivering the experience your employees need and customers want.

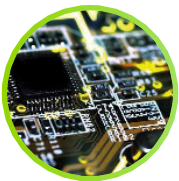

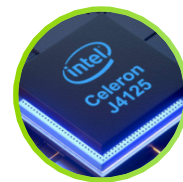

We designed our Z4125C Mini PC to offer the perfect combination of elegance, versatility, and reliability for your business (24/7 operation).

The Z4125C series features an Intel® Celeron J4125 processor (2.0-2.7 GHz) with a fanless cooling system ideal for high-demand tasks. It includes a solid-state drive for greater speed and 4 USB ports (2.0/3.0) to connect the ideal peripherals for any environment - all in a compact design built for tight spaces, with VESA mount support.

Operating system: an ideal device for running Windows, compatible with a wide range of software integrations. (License not included).

Processor: Our Mini PCs are designed to deliver the ideal compact experience thanks to their Intel® Celeron J4125 (2.0-2.7 GHz) and their fanless cooling system.

Our Mini PCs are built with dust-resistant industrial-grade components.

Operation: Our Mini PCs are built for industrial 24/7 operation. The Intel® Celeron J4125 processor is ideal for high-demand, multitasking workloads.

Installation flexibility: Ideal for POS billing solutions (supermarkets, kiosks, retail, and more).
