DESCRIPTION

Introducing SAT's latest addition to our equipment lineup, the SAT VP310L – a comprehensive and robust solution designed for price-checker POS systems. Whether you're running a store, market, fashion outlet, warehouse, restaurant, or any other business, this device delivers dependable and efficient performance to meet your demanding needs.

The SAT VP310L model features an Intel Celeron processor, making it an ideal choice for price-checking systems in retail environments. Its compact, lightweight design ensures easy installation and seamless integration into your existing POS setup. With versatile interface connectivity, you can effortlessly connect various peripherals like printers, barcode readers, cash drawers, and card readers. SAT's industrial-grade equipment is built to last, boasting a 10.1" multitouch screen with a sleek border-to-border glass design that's resistant to liquid splashes.

Software Compatibility: The SAT VP310L price checker ensures seamless compatibility and optimal performance with a wide range of POS software or programs.

Code Reader: The VP310L price checkers incorporate 1D and 2D code reader technology within their structure, enabling efficient scanning of both linear and QR codes.

Touchscreen Display: With user-friendly operation in mind, the new VP310L features an LCD touchscreen, ensuring agile and practical functionality for users.

Heavy-Duty Performance: An ideal unit for operating in the toughest conditions, capable of running 24/7, seven days a week, without interruption.

Operating System OS: The new SAT price checker, designed to work with the processor's architecture, is intended to run on the Windows operating system (NOT included).
