DESCRIPTION

Introducing the SAT VP310L, your go-to solution for robust and efficient price verification at the point of sale. Whether you're running a retail store, market, restaurant, or any business, this device is tailored to meet your demands. Powered by an industrial-grade Intel Celeron processor, it ensures high performance and easy integration with various peripherals. Its sleek design, durable build, and 10.1" multitouch screen make price checking a breeze, even in demanding environments.

SAT's commitment to delivering quality solutions shines through in the SAT VP310L. With its modern design and user-friendly interface, it's the ideal tool for hassle-free price verification, enhancing the customer experience and streamlining your operations.

Software Compatibility: The SAT VP310L price checker ensures seamless compatibility and optimal performance with a wide range of POS software or programs.

Code Reader: The VP310L price checkers incorporate 1D and 2D code reader technology within their structure, enabling efficient scanning of both linear and QR codes.

Touchscreen Display: With user-friendly operation in mind, the new VP310L features an LCD touchscreen, ensuring agile and practical functionality for users.

Heavy-Duty Performance: An ideal unit for operating in the toughest conditions, capable of running 24/7, seven days a week, without interruption.

Operating System (OS): Based on its processor architecture, the new SAT price verifier is designed to operate on the Android system, making it perfect for various app development needs.
